-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 23 February 2009.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Status***

1. Claims 2 and 3 are cancelled. Claim 1 has been amended. Claims 4-12 are withdrawn from examination. Claims 1 and 13 are pending and presented for examination.

### ***Election/Restrictions***

2. Applicant's election with traverse of Group I comprising claims 1 and 13 in the reply filed on 2/23/2009 is acknowledged. The traversal is on the ground(s) that Groups I-VI as amended now share a special technical feature and therefor should be examined together. This is not found persuasive because while the claims do share a common technical feature, it is not considered to be a special technical feature as it is known in the art as taught by Kustov et al. (see rejection below).

The requirement is still deemed proper and is therefore made FINAL.

### ***Specification***

3. A substitute specification excluding the claims is required pursuant to 37 CFR 1.125(a) because the current specification appears to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

A substitute specification must not contain new matter. The substitute specification must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after

the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) and a statement that the substitute specification contains no new matter must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown.

A substitute specification in proper idiomatic English and in compliance with 37 CFR 1.52(a) and (b) is required. The substitute specification filed must be accompanied by a statement that it contains no new matter.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim is dependent on claim 2, which is now cancelled and is therefore considered to be indefinite. For the purposes of examination the claim has been interpreted as depending from claim 1.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Kustov et al. (US 6388145).

In regard to claims 1 and 13, Kustov teaches a ZSM-5 zeolite that is modified by the impregnation with zinc oxide forming a nanocomposite (column 2, lines 20-31). As the material taught by Kustov is the same as the material required by the claims, UV resistance is considered to be inherent to the material taught by Kustov. This is further supported by the well known UV resistance offered by zinc oxide.
